REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The Appeal Brief filed on 1/16/04 has been considered.

The rejections made under 35 USC 112 have been withdrawn in view of the applicants' arguments. It is noted that the applicants explained that they interpreted the term "increasing concentration of ozonized water", not as actual increasing of the concentration, but as reducing of the rate of ozone decomposition. It is also noted that the "increasing" is relative not to the actual concentration of ozone obtained in contactor, but to the concentration that the delivered water would have if no CO₂ is added. The scope of the claims is determined accordingly.

The rejection of claim 2 made under 35 USC 112(2) is withdrawn in view of the applicants clarification of the scope of the claim presented in the Brief (page 10). The scope of the claim is determined accordingly.

The rejection of claims made under 35 USC 103 is withdrawn. After consideration of the applicants arguments presented in the Brief and reconsideration of the prior art the examiner agrees with the applicants position and interpretation of the teaching of the prior art presented in the Brief.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Markoff whose telephone number is 571-272-1304. The examiner can normally be reached on Monday-Friday.
